Request for Proposal: Cloud Warehouse Management System

Request details	
Issued by	Thornvale Foods S.A.
Reference	RFP-TF-2026-014
Issue date	2 November 2026
Proposal deadline	15 December 2026, 17:00 EET
Contact	procurement@thornvale.example

1. Introduction

Thornvale Foods S.A. is a food distributor based in Greece. We operate three temperature-controlled warehouses, in Attica, Central Macedonia and Crete, which serve supermarkets, restaurants and hotels. Our current on-premises warehouse system reaches the end of its support in 2027, and we are looking for a cloud warehouse management system (WMS) to replace it.

This document describes our requirements and the questions each vendor must answer in its proposal.

2. Timeline

Milestone	Date
RFP issued	2 November 2026
Deadline for vendor questions	20 November 2026
Proposal deadline	15 December 2026
Vendor presentations	January 2027
Contract award	February 2027
Go-live of the first warehouse	September 2027

3. Submission Instructions

Proposals must be written in English and sent as a single PDF file to procurement@thornvale.example before the deadline. Please answer every question in Sections 4 to 7 in the order in which it appears, using the same numbering. Late proposals will not be considered. All information in this document is confidential and may only be used to prepare a proposal.

4. Functional Requirements

4.1 Describe how your system supports FEFO (first-expired, first-out) picking for perishable goods.

4.2 Our warehouse staff use handheld scanners, and Wi-Fi coverage in our cold rooms is not reliable. Describe how your solution supports handheld scanners and what happens when the network connection is lost.

4.3 Confirm whether your solution supports separate temperature zones (frozen, chilled, ambient) within one warehouse.

5. Technical and Integration Requirements

5.1 We use Microsoft Dynamics 365 Business Central as our ERP system. Describe the options for integrating your WMS with it.

5.2 State the rate limits of your API.

5.3 Which EDI standards does your solution support? Several of our supermarket customers send orders by EDI.

6. Security and Compliance

6.1 Provide details of your information security certifications.

6.2 State where our data will be hosted, and whether it will ever be transferred outside the European Union.

6.3 Describe your commitments for notifying us of security incidents that affect our data.

6.4 Describe your backup strategy, including how often backups are taken and how long they are kept.

6.5 Explain how access by your staff to our data is controlled and recorded.

7. Commercial Terms

7.1 Provide your pricing model and an indicative annual cost for three warehouses and 60 named users.

7.2 Confirm the availability you commit to, and state whether service credits apply if it is not met.

8. Evaluation Criteria

Proposals will be evaluated on functional fit (35%), technical and integration fit (20%), security and compliance (20%), total cost of ownership (15%) and vendor experience in food distribution (10%). Thornvale Foods may invite shortlisted vendors to present their solution in January 2027.
